Uhh, err, Madoka!

I like the concept and the obvious effort to create an atmosphere of terror, but the method of controlling the wheelchair of the main character is terrible and takes all the life out of a game that has possibilities with more work into making one feel "there". Also some of the animations are good, but others (like the bats) look 2D or folded paper.

Me gusta el concepto y el esfuerzo obvio para crear un ambiente de terror, pero el m\u00e9todo de control de la silla de rueda del protagonista es terrible y saca la vida de un juego que tiene posibilidades con m\u00e1s trabajo de hacerse sentir \u201cen el lugar\u201d. Algunas animaciones son buenas, otras (como los murci\u00e9lagos) se ven de dos dimensiones o hecho de papel.. The games has change a lot I can totally say is worth

this game does give u a nice challenge , the combat system is actually great and the graphics are very nice

I totally recommend this game. Absolutely perfect boredom buster. So much fun. Must have for anyone who likes Breakout style games.. Duimpies omhoog als je een echte Nederlander bent :P. It really good.

If you like Castle Crashers, get this. Simple as that really.

It's a colourful, fun lane-based brawler, intuitive and not too easy nor too hard. Hope to see more playable characters in the future!. You should **buy Star Vikings**. **It is a game with a fantastic gameplay for those who enjoy puzzles. The Vikings attack the snails with hits that cause chain reactions creating a very good feel. The music and all sound effects are exciting. It is a casual game in its essence but you need a lot of intelligence to do well in puzzles. I really liked it.. I purchased this route when it came out. The train was capable of ~346km/h max speed with awesome acceleration. Since the last game update, it barely can reach the max line speed and feels powerless. Takes away the excitement. Please change it back or compensate. Btw the cab sounds are one of the best and the scenery is well designed. One of my favourites and I recommend it.. i like this game!!!!. As far as DLC goes, yeah, it was underwhelming. But, more of the same of Shantae is never a bad thing. Playing as Risky Boots was still fun enough, even though the move sets are exactly like The Pirate's Curse, it was still great to play through the game with different abilities as well as finding new collectibles.**

My biggest gripe with this DLC is playing through the exact same levels. Yeah, each level is slightly different to suit Risky Boots and her new move set, but this isn't Shovel Knight and I felt there was a lot of wasted potential.

And it's short. I did a 100% run in less than 3 hours. I know its DLC and all, but it could have stood to be a bit longer.

Despite all these flaws, I still recommend it, as it's still a great platformer, fun and you get more of the same. I will say the \$9.99 is a steep asking price, I feel it should be in the \$4-\$5.99 range for the amount of content you get. Maybe wait for a price drop, but if you're a fan of Shantae, give this one a shot.. Pretty solid game. Graphics are so-so, but the core gameplay is solid. Multiplayer is really fun.. Do not buy Steam or Origin version of Crysis. The game keeps crashing and none of the suggestions people made on web worked for me. This is the first time a game I bought via Steam disappointed me. From now on I'll read the reviews more carefully.
